Goldman Sachs Australia Pty Ltd

RIO reported an in-line SepQ, with a resilient Pilbara performance and group CuEq production (+1% YoY) supported by the stronger than expected recoveries and ramp-up at Oyu Tolgoi. Group copper production of 205kt came in-line with our estimates, with the Oyu Tolgoi beat (+14%/+17% vs. GSe/VA consensus) offsetting a weak quarter at both Kennecott (70 day furnace rebuild) and Escondida (weather). Global iron ore sales of 90.8Mt were up +3% YoY with Pilbara shipments of 85.7Mt, in-line with GSe, and Simandou achieving a ~10Mtpa (100%) annualised production run-rate in the quarter. All 2026 production, sales and unit cost guidance went unchanged, with lithium flagged at the lower end of the 61-64kt LCE range on a slower Sal de Vida ramp-up. RIO provided at a high level that it has achieved ~US$2bn in capital release YTD of the US$5bn expected this year, and management reiterated the US$1.8bn annualised productivity benefit run-rate target by end-2026.

Key 3Q26 takeaways:

- **Copper:** Guidance of 800-870kt consolidated copper production maintained, and C1 net unit cost guidance of US30-50c/lb (GSe already at low end) was unchanged.
  - **Oyu Tolgoi:** production of 114kt was +27% YoY. The operation ran at a ~450ktpa annualised rate in the quarter, keeping the ramp-up on track for ~500ktpa (100%) from 2028-2036. The next planned open pit phases contain lower gold grades through the rest of 2026 and into 2027 following completion of a high gold-grade phase (we note this as a by-product credit headwind into 2027). On Entree, the Government of Mongolia agreed in June to commence work on resolution of the Panel 1 licence transfer; this remains in progress, with Panels 0 and 2 North (then 2 South) being advanced and Panel 1 now expected to be the final panel into production.
  - **Kennecott:** refined copper of 11.7kt was -10% YoY and -43% QoQ, reflecting the flash converting furnace outage. However, the rebuild was completed at end-August over ~70 days (vs the ~75 days guided in July) and the furnace has returned to normal capacity, with mined copper of 33.7kt up 67% QoQ on higher throughput, grades and recoveries. Matte accumulated ahead of the converter should convert to cathode and

support 2027 cash flows. Geotechnical management in the open pit is ongoing. Management flagged molybdenum production falling through the rest of 2026 and into 2027 on mine sequencing (3Q Mo of 0.9kt was -31% YoY), partly offset by rising gold grades and recoveries. A seismic event occurred at the North Rim Skarn underground on 10 September, with the mine plan sequence and potential impacts under assessment following an external geotechnical review.

- **Escondida:** Production was soft for the Q at 79kt, and mostly expected, due to severe weather, scheduled maintenance, a fatal incident, and lower feed grades (in line with mine sequence). Risk of industrial action could present some risk to Q4 production.

- **Iron ore:** Global production of 89.7Mt was +2% YoY and global sales of 90.8Mt were +3% YoY, with sales guidance of 343-366Mt (100%) maintained.
  - **Pilbara:** shipments of 85.7Mt came in-line with our estimate, ahead of VA consensus. Management reiterated that port outload capacity will be impacted during some quarters in 2027 and 2028 with major capital projects underway (including Parker Point reclaimers) to improve system flexibility ahead of Rhodes Ridge, consistent with our ~340Mtpa near-term view vs RIO's medium-term 345-360Mtpa guide.
  - **Simandou:** production ramped to 2.5Mt (100%), achieving a ~10Mtpa annualised run-rate, with 2.2Mt shipped and 1.3Mt of sales recognised in the quarter. Fixed-plant commissioning and operational readiness progressed as planned, with load commissioning and first ore through one of the two primary crushers expected in 4Q26, and first ore through the SimFer port also expected in 4Q26 (port and marine infrastructure now 92% complete, mine ~84% complete). Stockpiles remain substantial at 7.9Mt of uncrushed ore at the mine and 11.1Mt across the system. The 60Mtpa run-rate during 2H28 was reaffirmed. We note the ~75-90 day mine-to-sale cycle (plus up to 30 days customer collection) continues to create a material gap between shipments and recognised sales.

- **Aluminium:** primary production of ~0.8Mt was -2% YoY, with the Arvida closure offset by Kitimat, Boyne and the AP60 ramp-up. Bauxite of 15.7Mt was -4% YoY on Weipa planned shutdowns and a 10-day CBG off-loading line maintenance. Alumina of 2.1Mt was +10% YoY (QAL now 100% basis), with average realised tariff cost rising to US$1,685/t (from US$1,322/t in 1H) on 255kt of US-destination shipments, partially offset by an average MWP duty paid of US$2,420/t. The key positive was Pacific smelter repowering progressing well following the Tomago and Bell Bay power agreements in the quarter.

- **Lithium:** LCE production of 13kt was +4% YoY but -11% QoQ on planned annual maintenance and severe weather events at Fenix and Olaroz. Fénix 1B ramp-up is progressing well, but Sal de Vida is ramping slower than anticipated due to equipment availability, and full-year LCE guidance is now expected at the low end of 61-64kt. Rincon expansion (US$2.5bn, 60ktpa) remains on track for first production in 2028, while at Nemaska construction remains at reduced levels pending the

Whabouchi/Galaxy strategic review decision expected in 4Q26.

- **Capital release and portfolio:** RIO announced >US$2bn of capital release YTD and remains on track to announce ~US$5bn in total by end-2026 as part of the US$5-10bn program (comprising the Dampier desal plant, the Kitimat land sale (completion expected 4Q26), a non-binding lithium pre-payment sales contract, and smaller non-core disposals). RIO Strategic reviews are advancing with the market being actively tested for Borates and options being evaluated for Iron & Titanium. Exploration and evaluation expense of US$692mn YTD is up from US$537mn, ~50% copper.
- **Future projects:** At Resolution copper, on 29 September challenge to the land exchange was declined (a further Supreme Court appeal remains possible), underground cover-hole drilling commenced two months ahead of plan on 31 August, and engineering for long-lead items is advancing (in-line with the schedule in our recent deep dive report on the project). At Winu, the mining lease was granted on 22 September, the Traditional Owners Project Agreement was signed on 8 September, and the ~10Mtpa feasibility study remains on track for around end-2026, though negotiations for airstrip and water access continue. The Arctial JV moved into feasibility in 3Q.

EBITDA/NAV changes and Investment thesis

We adjust our 2026-28 EBITDA by -1% after incorporating the result and our latest lithium price forecasts. Our NAV is down ~2% to ~A$196/sh with these changes and on the higher net debt. Overall, our 12-month price target has decreased by ~1% to A$176.3/sh (from A$178.6/sh).

We continue to **rate RIO.AX a Buy** based on:

1. **Attractive valuation and FCF:** RIO is trading at ~0.8x NAV (~A$196/sh) vs. peers (BHP ~0.9x NAV and FMG ~1.2x NAV), and RIO.AX is trading at ~7x NTM EBITDA, in-line with BHP.AX on ~7x, and the 25-yr historical average of 6.5-7x, but still below pure play base metal companies. Additionally, FCF/dividend looks attractive at ~5% in 2026E (~6% at spot), driven by our positive view on aluminium and bullish view on copper (~45-50% of group EBITDA in 2026E, and ~60% by 2030E).
2. **Compelling medium term Cu Eq and EBITDA growth:**
   - RIO maintains sector leading production and EBITDA growth, and we forecast RIO's Cu Eq production to grow by ~10% and EBITDA by ~30% from 2025 to 2030, driven mostly by the ramp-up of the Oyu Tolgoi UG copper mine, higher grades at Bingham Canyon copper from 2027, the ramp-up of the Simandou iron ore mine in Guinea, higher Pilbara Fe shipments & FCF/t (medium-term shipments guidance of 345-360Mtpa by 2028 vs. GSe ~340Mtpa) with the ramp-up of new mines (such as Rhodes Ridge), expanding aluminium margins, and lithium growth in Argentina.
   - The company also has attractive longer dated growth copper growth projects including Resolution & La Granja copper and lithium options in Chile. We forecast Cu Eq production growth of just ~1% p.a. in 2026, but an average of

知识星球：前沿信息收录
VX:FCCNN88

3% p.a. from 2027-2030.

3. **Simplification strategy to lower costs and assist de-leveraging:** The company's compelling strategy remains unchanged, anchored on the 'stronger, sharper, simpler' agenda presented at the recent capital markets day, which includes US$5-10bn (vs GSe ~US$10bn) of non-core divestments and cost out.

PT methodology and investment risks

- Our 12m PT is set at an equal 50:50 blend of NAV and EV/EBITDA with a 7.0x target multiple (unchanged).
- **Downside risks to our Buy call:**
  - **Iron ore and base metal price weakness:** weakness in demand could negatively impact the price for iron ore, copper and aluminium.
  - **Ongoing impacts from WA Heritage to permitting timelines and operations in the Pilbara:** delays to heritage approvals in WA could impact permitting timelines and operations in the Pilbara that may impact production output, product grade, costs and capex (note Pilbara represents ~50% of group NAV).
  - **Delays to further growth:** Oyu Tolgoi (underground ramp-up/ Mongolia tax dispute), Pilbara (replacement mines / Rhodes Ridge), Simandou (ramp-up), Lithium, Escondida & decarbonisation projects.
  - **Higher capex and opex due to industry cost inflation:** Cost inflation across both capital and operating expenditure is a persistent risk. RIO is spending ~US$10-11bn p.a. in capex, and elevated input costs would erode free cash

Disclosure Appendix

Reg AC

We, Paul Young and Chris Bulgin, hereby certify that all of the views expressed in this report accurately reflect our personal views about the subject company or companies and its or their securities. We also certify that no part of our compensation was, is or will be, directly or indirectly, related to the specific recommendations or views expressed in this report.

Unless otherwise stated, the individuals listed on the cover page of this report are analysts in Goldman Sachs' Global Investment Research division.

Contributing Authors: Paul Young Goldman Sachs Australia Pty Ltd, Chris Bulgin Goldman Sachs Australia Pty Ltd.

Unless otherwise stated, the individuals listed in the Contributing Authors disclosure of this report are analysts in Goldman Sachs' Global Investment Research division.

GS Factor Profile

The Goldman Sachs Factor Profile provides investment context for a stock by comparing key attributes to the market (i.e. our universe of rated stocks) and its sector peers. The four key attributes depicted are: Growth, Financial Returns, Multiple (e.g. valuation) and Integrated (a composite of Growth, Financial Returns and Multiple). Growth, Financial Returns and Multiple are calculated by using normalized ranks for specific metrics for each stock. The normalized ranks for the metrics are then averaged and converted into percentiles for the relevant attribute. The precise calculation of each metric may vary depending on the fiscal year, industry and region, but the standard approach is as follows:

Growth is based on a stock's forward-looking sales growth, EBITDA growth and EPS growth (for financial stocks, only EPS and sales growth), with a higher percentile indicating a higher growth company. **Financial Returns** is based on a stock's forward-looking ROE, ROCE and CROCI (for financial stocks, only ROE), with a higher percentile indicating a company with higher financial returns. **Multiple** is based on a stock's forward-looking P/E, P/B, price/dividend (P/D), EV/EBITDA, EV/FCF and EV/Debt Adjusted Cash Flow (DACF) (for financial stocks, only P/E, P/B and P/D), with a higher percentile indicating a stock trading at a higher multiple. The **Integrated** percentile is calculated as the average of the Growth percentile, Financial Returns percentile and (100% - Multiple percentile).

Financial Returns and Multiple use the Goldman Sachs analyst forecasts at the fiscal year-end at least three quarters in the future. Growth uses inputs for the fiscal year at least seven quarters in the future compared with the year at least three quarters in the future (on a per-share basis for all metrics).

For a more detailed description of how we calculate the GS Factor Profile, please contact your GS representative.

M&A Rank

Across our global coverage, we examine stocks using an M&A framework, considering both qualitative factors and quantitative factors (which may vary across sectors and regions) to incorporate the potential that certain companies could be acquired. We then assign a M&A rank as a means of scoring companies under our rated coverage from 1 to 3, with 1 representing high (30%-50%) probability of the company becoming an acquisition target, 2 representing medium (15%-30%) probability and 3 representing low (0%-15%) probability. For companies ranked 1 or 2, in line with our standard departmental guidelines we incorporate an M&A component into our target price. M&A rank of 3 is considered immaterial and therefore does not factor into our price target, and may or may not be discussed in research.

Quantum

Quantum is Goldman Sachs' proprietary database providing access to detailed financial statement histories, forecasts and ratios. It can be used for in-depth analysis of a single company, or to make comparisons between companies in different sectors and markets.

Disclosures

The rating(s) for Rio Tinto Ltd. is/are relative to the other companies in its/their coverage universe: BHP Group Ltd., BlueScope Steel, Champion Iron Ltd., Deterra Royalties Ltd., Fortescue Metals Group, Iluka Resources, Lynas Rare Earths Ltd., Mineral Resources, New Hope Corp., Rio Tinto Ltd., Sandfire Resources, Sims Ltd., WA1 Resources, Whitehaven Coal Ltd.

Regulatory disclosures

Disclosures required by United States laws and regulations

See company-specific regulatory disclosures above for any of the following disclosures required as to companies referred to in this report: manager or co-manager in a pending transaction; 1% or other ownership; compensation for certain services; types of client relationships; managed/co-managed public offerings in prior periods; directorships; registered market maker. Goldman Sachs trades or may trade as a principal in debt securities (or in related derivatives) of issuers discussed in this report.

The following are additional required disclosures: **Ownership and material conflicts of interest:** Goldman Sachs policy prohibits its analysts, professionals reporting to analysts and members of their households from owning securities of any company in the analyst's area of coverage. **Analyst compensation:** Analysts are paid in part based on the profitability of Goldman Sachs, which includes investment banking revenues. **Analyst as officer or director:** Goldman Sachs policy generally prohibits its analysts, persons reporting to analysts or members of their households from serving as an officer, director or advisor of any company in the analyst's area of coverage. **Non-U.S. Analysts:** Non-U.S. analysts may not be associated persons of Goldman Sachs & Co. LLC and therefore may not be subject to FINRA Rule 2241 or FINRA Rule 2242 restrictions on communications with a subject company, public appearances and trading in securities covered by the analysts.

Additional disclosures required under the laws and regulations of jurisdictions other than the United States

The following disclosures are those required by the jurisdiction indicated, except to the extent already made above pursuant to United States laws and regulations. **Australia:** Goldman Sachs Australia Pty Ltd and its affiliates are not authorised deposit-taking institutions (as that term is defined in the Banking Act 1959 (Cth)) in Australia and do not provide banking services, nor carry on a banking business, in Australia. This research, and any access to it, is intended only for "wholesale clients" within the meaning of the Australian Corporations Act, unless otherwise agreed by Goldman Sachs. In producing research reports, members of Global Investment Research of Goldman Sachs Australia may attend site visits and other meetings hosted by the companies and other entities which are the subject of its research reports. In some instances the costs of such site visits or meetings may be met in part or in whole by the issuers concerned if Goldman Sachs Australia considers it is appropriate and reasonable in the specific circumstances relating to the site visit or meeting. To the extent that the contents of this document contains any financial product advice, it is general advice only and has been prepared by Goldman Sachs without taking into account a client's objectives, financial situation or needs. A client should, before acting on any such advice, consider the appropriateness of the advice having regard to the client's own objectives, financial situation and needs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests and a copy of Goldman Sachs' Australian Sell-Side Research Independence Policy Statement are available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Brazil:** Disclosure information in relation to CVM Resolution n. 20 is available at https://www.gs.com/worldwide/brazil/area/gir/index.html. Where applicable, the Brazil-registered analyst primarily responsible for the content of this research report, as defined in Article 20 of CVM Resolution n. 20, is the first author named at the beginning of this report, unless indicated otherwise at the end of the text. **Canada:** This information is being provided to you for information purposes only and is not, and under no circumstances should be construed as, an advertisement, offering or solicitation by Goldman Sachs & Co. LLC for purchasers of securities in Canada to trade in any Canadian security. Goldman Sachs & Co. LLC is not registered as a dealer in any jurisdiction in Canada under applicable Canadian securities laws and generally is not permitted to trade in Canadian securities and may be prohibited from selling certain securities and products in certain jurisdictions in Canada. If you wish to trade in any Canadian securities or other products in Canada please contact Goldman Sachs Canada Inc., an affiliate of The Goldman Sachs Group Inc., or another registered Canadian dealer. **Hong Kong:** Further information on the securities of covered companies referred to in this research may be obtained on request from Goldman Sachs (Asia) L.L.C. **India:** Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (India) Securities Private Limited, Research Analyst - SEBI Registration Number INH000001493, 10th Floor, Ascent-Worli, Sudam Kalu Ahire Marg, Worli, Mumbai-400 025, India, Corporate Identity Number U74140MH2006FTC160634, Phone +91 22 6616 9000, Fax +91 22 6616 9001. Goldman Sachs may beneficially own 1% or more of the securities (as such term is defined in clause 2 (h) the Indian Securities Contracts (Regulation) Act, 1956) of the subject company or companies referred to in this research report. Registration granted by SEBI and certification from NISM in no way guarantee performance of the intermediary or provide any assurance of returns to investors. Goldman Sachs (India) Securities Private Limited compliance officer and investor grievance contact details, a copy of the annual compliance audit report and other relevant information and disclosures can be found at this link: https://www.goldmansachs.com/worldwide/india/research-analyst. **Japan:** See below. **Korea:** This research, and any access to it, is intended only for "professional investors" within the meaning of the Financial Services and Capital Markets Act, unless otherwise agreed by Goldman Sachs. Further information on the subject company or companies referred to in this research may be obtained from Goldman Sachs (Asia) L.L.C., Seoul Branch. **New Zealand:** Goldman Sachs New Zealand Limited and its affiliates are neither "registered banks" nor "deposit takers" (as defined in the Reserve Bank of New Zealand Act 1989) in New Zealand. This research, and any access to it, is intended for "wholesale clients" (as defined in the Financial Advisers Act 2008) unless otherwise agreed by Goldman Sachs. A copy of certain Goldman Sachs Australia and New Zealand disclosure of interests is available at: https://www.goldmansachs.com/disclosures/australia-new-zealand/index.html. **Russia:** Research reports distributed in the Russian Federation are not advertising as defined in the Russian legislation, but are information and analysis not having product promotion as their main purpose and do not provide appraisal within the meaning of the Russian legislation on appraisal activity. Research reports do not constitute a personalized investment recommendation as defined in Russian laws and regulations, are not addressed to a specific client, and are prepared without analyzing the financial circumstances, investment profiles or risk profiles of clients. Goldman Sachs assumes no responsibility for any investment decisions that may be taken by a client or any other person based on this research report. **Singapore:** Goldman Sachs (Singapore) Pte. (Company Number: 198602165W), which is regulated by the Monetary Authority of Singapore, accepts legal responsibility for this research, and should be contacted with respect to any matters arising from, or in connection with, this research. **Taiwan:** This material is for reference only and must not be reprinted without permission. Investors should carefully consider their own investment risk. Investment results are the responsibility of the individual investor. **United Kingdom:** Persons who would be categorized as retail clients in the United Kingdom, as such term is defined in the rules of the Financial Conduct Authority, should read this research in conjunction with prior Goldman Sachs research on the covered companies referred to herein and should refer to the risk warnings that have been sent to them by Goldman Sachs International. A copy of these risks warnings, and a glossary of certain financial terms used in this report, are available from Goldman Sachs International on request.

European Union and United Kingdom: Disclosure information in relation to Article 6 (2) of the European Commission Delegated Regulation (EU) (2016/958) supplementing Regulation (EU) No 596/2014 of the European Parliament and of the Council (including as that Delegated Regulation is implemented into United Kingdom domestic law and regulation following the United Kingdom's departure from the European Union and the European Economic Area) with regard to regulatory technical standards for the technical arrangements for objective presentation of investment recommendations or other information recommending or suggesting an investment strategy and for disclosure of particular interests or indications of

知识星球：前沿信息收录
VX:FCCNN88

conflicts of interest is available at https://www.gs.com/disclosures/europeanpolicy.html which states the European Policy for Managing Conflicts of Interest in Connection with Investment Research.

Japan: Goldman Sachs Japan Co., Ltd. is a Financial Instrument Dealer registered with the Kanto Financial Bureau under registration number Kinsho 69, and a member of Japan Securities Dealers Association, Financial Futures Association of Japan Type II Financial Instruments Firms Association, and Investment Management Association of Japan. Sales and purchase of equities are subject to commission pre-determined with clients plus consumption tax. See company-specific disclosures as to any applicable disclosures required by Japanese stock exchanges, the Japanese Securities Dealers Association or the Japanese Securities Finance Company.

Ratings, coverage universe and related definitions

Buy (B), Neutral (N), Sell (S) Analysts recommend stocks as Buys or Sells for inclusion on various regional Investment Lists. Being assigned a Buy or Sell on an Investment List is determined by a stock's total return potential relative to its coverage universe. Any stock not assigned as a Buy or a Sell on an Investment List with an active rating (i.e., a stock that is not Rating Suspended, Not Rated, Early-Stage Biotech, Coverage Suspended or Not Covered), is deemed Neutral. Each region manages Regional Conviction Lists, which are selected from Buy rated stocks on the respective region's Investment Lists and represent investment recommendations focused on the size of the total return potential and/or the likelihood of the realization of the return across their respective areas of coverage. The addition or removal of stocks from such Conviction Lists are managed by the Investment Review Committee or other designated committee in each respective region and do not represent a change in the analysts' investment rating for such stocks.

Total return potential represents the upside or downside differential between the current share price and the price target, including all paid or anticipated dividends, expected during the time horizon associated with the price target. Price targets are required for all covered stocks. The total return potential, price target and associated time horizon are stated in each report adding or reiterating an Investment List membership.

Coverage Universe: A list of all stocks in each coverage universe is available by primary analyst, stock and coverage universe at https://www.gs.com/research/hedge.html.

Not Rated (NR). The investment rating, target price and earnings estimates (where relevant) are removed pursuant to Goldman Sachs policy when Goldman Sachs is acting in an advisory capacity in a merger or in a strategic transaction involving this company, when there are legal, regulatory or policy constraints due to Goldman Sachs' involvement in a transaction, and in certain other circumstances. **Early-Stage Biotech (ES).** An investment rating and a target price are not assigned pursuant to Goldman Sachs policy when this company has neither a drug, treatment or medical device that has passed a Phase II clinical trial nor a license to distribute a post-Phase II drug, treatment or medical device. **Rating Suspended (RS).** Goldman Sachs Research has suspended the investment rating and price target for this stock, because there is not a sufficient fundamental basis for determining an investment rating or target price. The previous investment rating and target price, if any, are no longer in effect for this stock and should not be relied upon. **Coverage Suspended (CS).** Goldman Sachs has suspended coverage of this company. **Not Covered (NC).** Goldman Sachs does not cover this company.

Global product; distributing entities

Goldman Sachs Global Investment Research produces and distributes research products for clients of Goldman Sachs on a global basis. Analysts based in Goldman Sachs offices around the world produce research on industries and companies, and research on macroeconomics, currencies, commodities and portfolio strategy. This research is disseminated in Australia by Goldman Sachs Australia Pty Ltd (ABN 21 006 797 897); in Brazil by Goldman Sachs do Brasil Corretora de Títulos e Valores Mobiliários S.A.; Public Communication Channel Goldman Sachs Brazil: 0800 727 5764 and / or contatogoldmanbrasil@gs.com. Available Weekdays (except holidays), from 9am to 6pm. Canal de Comunicação com o Público Goldman Sachs Brasil: 0800 727 5764 e/ou contatogoldmanbrasil@gs.com. Horário de funcionamento: segunda-feira à sexta-feira (exceto feriados), das 9h às 18h; in Canada by Goldman Sachs & Co. LLC; in Hong Kong by Goldman Sachs (Asia) L.L.C.; in India by Goldman Sachs (India) Securities Private Ltd.; in Japan by Goldman Sachs Japan Co., Ltd.; in the Republic of Korea by Goldman Sachs (Asia) L.L.C., Seoul Branch; in New Zealand by Goldman Sachs New Zealand Limited; in Russia by OOO Goldman Sachs; in Singapore by Goldman Sachs (Singapore) Pte. (Company Number: 198602165W); and in the United States of America by Goldman Sachs & Co. LLC. Goldman Sachs International has approved this research in connection with its distribution in the United Kingdom.

Goldman Sachs International ("GSI"), authorised by the Prudential Regulation Authority ("PRA") and regulated by the Financial Conduct Authority ("FCA") and the PRA, has approved this research in connection with its distribution in the United Kingdom.

European Economic Area: Goldman Sachs Bank Europe SE ("GSBE") is a credit institution incorporated in Germany and, within the Single Supervisory Mechanism, subject to direct prudential supervision by the European Central Bank and in other respects supervised by German Federal Financial Supervisory Authority (Bundesanstalt für Finanzdienstleistungsaufsicht, BaFin) and Deutsche Bundesbank and disseminates research within the European Economic Area.

General disclosures

This research is for our clients only. Other than disclosures relating to Goldman Sachs, this research is based on current public information that we consider reliable, but we do not represent it is accurate or complete, and it should not be relied on as such. The information, opinions, estimates and forecasts contained herein are as of the date hereof and are subject to change without prior notification. We seek to update our research as appropriate, but various regulations may prevent us from doing so. Other than certain industry reports published on a periodic basis, the large majority of reports are published at irregular intervals as appropriate in the analyst's judgment.

Goldman Sachs conducts a global full-service, integrated investment banking, investment management, and brokerage business. We have investment banking and other business relationships with a substantial percentage of the companies covered by Global Investment Research. Goldman Sachs & Co. LLC, the United States broker dealer, is a member of SIPC (https://www.sipc.org).

Our salespeople, traders, and other professionals may provide oral or written market commentary or trading strategies to our clients and principal trading desks that reflect opinions that are contrary to the opinions expressed in this research. Our asset management area, principal trading desks and investing businesses may make investment decisions that are inconsistent with the recommendations or views expressed in this research.

The analysts named in this report may have from time to time discussed with our clients, including Goldman Sachs salespersons and traders, or may discuss in this report, trading strategies that reference catalysts or events that may have a near-term impact on the market price of the equity securities discussed in this report, which impact may be directionally counter to the analyst's published price target expectations for such stocks. Any such trading strategies are distinct from and do not affect the analyst's fundamental equity rating for such stocks, which rating reflects a stock's return potential relative to its coverage universe as described herein.

We and our affiliates, officers, directors, and employees will from time to time have long or short positions in, act as principal in, make a market or act as liquidity provider in, and buy or sell, any securities, derivatives, or other financial instruments referred to in this research (including any financial instruments issued by the companies referred to herein), unless otherwise prohibited by regulation or Goldman Sachs policy.

Views attributed to third party presenters at Goldman Sachs arranged conferences, including individuals from other parts of Goldman Sachs, do not

知识星球：前沿信息收录

necessarily reflect those of Global Investment Research and are not an official view of Goldman Sachs.

Any third party referenced herein, including any salespeople, traders and other professionals or members of their household, may have positions in the products mentioned that are inconsistent with the views expressed by analysts named in this report.

This research is not an offer to sell or the solicitation of an offer to buy any security in any jurisdiction where such an offer or solicitation would be illegal. It does not constitute a personal recommendation or take into account the particular investment objectives, financial situations, or needs of individual clients. Clients should consider whether any advice or recommendation in this research is suitable for their particular circumstances and, if appropriate, seek professional advice, including tax advice. The price and value of investments referred to in this research and the income from them may fluctuate. Past performance is not a guide to future performance, future returns are not guaranteed, and a loss of original capital may occur. Fluctuations in exchange rates could have adverse effects on the value or price of, or income derived from, certain investments.

Certain transactions, including those involving futures, options, and other derivatives, give rise to substantial risk and are not suitable for all investors. Investors should review current options and futures disclosure documents which are available from Goldman Sachs sales representatives or at https://www.theocc.com/about/publications/character-risks.jsp and https://www.goldmansachs.com/disclosures/cftc_fcm_disclosures. Transaction costs may be significant in option strategies calling for multiple purchase and sales of options such as spreads. Supporting documentation will be supplied upon request.

Differing Levels of Service provided by Global Investment Research: The level and types of services provided to you by Goldman Sachs Global Investment Research may vary as compared to that provided to internal and other external clients of GS, depending on various factors including your individual preferences as to the frequency and manner of receiving communication, your risk profile and investment focus and perspective (e.g., marketwide, sector specific, long term, short term), the size and scope of your overall client relationship with GS, and legal and regulatory constraints. As an example, certain clients may request to receive notifications when research on specific securities is published, and certain clients may request that specific data underlying analysts' fundamental analysis available on our internal client websites be delivered to them electronically through data feeds or otherwise. No change to an analyst's fundamental research views (e.g., ratings, price targets, or material changes to earnings estimates for equity securities), will be communicated to any client prior to inclusion of such information in a research report broadly disseminated through electronic publication to our internal client websites or through other means, as necessary, to all clients who are entitled to receive such reports.

All research reports are disseminated and available to all clients simultaneously through electronic publication to our internal client websites. Not all research content is redistributed to our clients or available to third-party aggregators, nor is Goldman Sachs responsible for the redistribution of our research by third party aggregators. For research, models or other data related to one or more securities, markets or asset classes (including related services) that may be available to you, please contact your GS representative or go to https://research.gs.com.

Disclosure information is also available at https://www.gs.com/research/hedge.html or from Research Compliance, 200 West Street, New York, NY 10282.
