Hua Hong Grace

ASP recovery confirmed, earnings upcycle ahead; upgrade to Buy; raise PO to HK$105

Rating Change: BUY | PO: 105.00 HKD | Price: 74.55 HKD

Upgrade to Buy: ASP recovery + consolidation

We upgrade Hua Hong Grace from Underperform to Buy, given a clear recovery in its foundry wafer ASP and margins, backed by AI-related demand. The acquisition of Fab5 has contributed to the firm's revenue/gross margin. The company's potential consolidation with other affiliate fabs could be a positive catalyst for its share price.

Mature node foundry business also benefiting from AI

Excluding Fab5, Hua Hong 3Q26 revenue was US$803mn, +12% QoQ/+26% YoY, exceeding the previously guided range of US$770-780mn. This should be mostly driven by strong demand from MCU, NOR flash, PMIC, etc. Hua Hong Grace's management estimates that more than 50% of its products, across its technology platforms, ultimately serve AI-related end-markets. The company plans to significantly expand capacity for power management and silicon photonics chips in 2027. In addition, the Fab5 contributed extra US$184mn revenue (about 19% of the company's total), with gross margin of 45% (higher than the company average of 25%).

Upcycle earnings on solid ASP momentum; PO HK$105

Hua Hong's wafer ASP in 3Q26 should be US$517/wafer, +11% QoQ/+14% YoY – the highest QoQ growth seen in the past 10 years. Management confirmed its wafer capacity is in significant shortage – currently about 50% orders can't be fulfilled. Management stated that the company is on track to achieve 10-15% YoY ASP increase in 2026 and another 10-15% increase in 2027. As such, the gross margin should improve to 25%+ (our estimate 28% vs. 2025/26 GPM 12%/22%). Given the ASP recovery trend and upcycle-level profitability outlook, we lift our target P/B multiple from 2x (2027E) to 3x (2027/28 average), which is at the upper band of the historical range (0.5-3x) and benchmarking China semiconductor manufacturing peers' valuation (2.6x on average, 2027E). We therefore raise our PO for Hua Hong Grace to HK$105 from HK$69 and upgrade our rating to Buy.

Company Sector

Semiconductors

Company Description

Hua Hong Grace is a pure foundry mainly engaged in 200mm and 300mm wafer processing. Different to some of its foundry peers, the company primarily focuses on manufacturing the semiconductors for specialty applications, such as embedded non-volatile memory (eNVM) and power discrete.

Investment Rationale

Our Buy rating for Hua Hong Grace is based on 1) positive outlook on the company's ASP/margin recovery, 2) its increasing exposure in the AI field, and 3) further expansion/node migration potential.

Valuation

Hua Hong Grace H-shares are traded between 0.5-3x P/B historically – hiked to 5x in 2Q26 due to the market optimism on AI but pulled back to around 2x currently. We derive our PO of HK$105 for Hua Hong adopting 3x 2027/28E average BVPS of US$4.42. This is at the upper band of historical range, considering the positive outlook on the company's ASP/profitability recovery trend – OP margin is expected to reach 19%/22% in 2027/28, similar to the historical peak levels in 2017-18 and 2021-22. The target P/B multiple is also benchmarking China semiconductor manufacturing peers' (foundries, OSATs, etc.) average level, which is 2.6x on average (2027E). We are not discounting Hua Hong H-share vs peers' A-share valuation given its sufficient liquidity (average daily trading volume over US$360mn in the past 3 months). The major downside risk to our forecast/valuation is a potential escalation of semiconductor/ technology-related trade restrictions which could impact Hua Hong's access to key equipment or materials. In contrast, faster-than-expected capacity expansion or node migration by the company suggest upside risks.

Exhibit 11: Hua Hong Grace – Our estimates vs consensus

We expect Hua Hong's GPM to continue improving through 4Q26 and 1H27 vs consensus view of remaining flattish; 2027 full year consensus estimates of revenue/GPM too low in our view

Exhibit 13: Hua Hong Grace – Wafer shipment/ASP assumptions
We now forecast Hua Hong's blended wafer ASP to increase by 13% in 2027 and maintain stable in 2028; 25%/10% wafer shipment growth should be supported by the capacity increase

Price objective basis & risk

Hua Hong Grace (HHUSF)

Our PO of HK$105 is based on 3x 2027-28E average BVPS of US$4.4. The target P/B is at the upper band of historical range, considering the positive outlook on the company's ASP/profitability recovery trend, backed by the strong chip demand from AI-related applications. The target P/B multiple is also benchmarking China semiconductor manufacturing peers' (foundries, OSATs, etc.) average level, which is 2.6x on average (2027E). We are not discounting Hua Hong H-share vs peers' A-share valuation given its sufficient liquidity.

Upside risks to our PO are: 1) faster-than-expected capacity expansion or node migration by the company, and 2) stronger government supports (subsidies, policies supporting semis localization, push for industry consolidation, etc).

Downside risks to our PO are: 1) faster-than-expected capacity expansion by domestic peers such as SMIC, Nexchip, United Nova, etc., 2) softer-than-expected end-demand on macro/trade issues, 3) being cut-off from accessing key equipment and materials.

Buy	2057	57.03%	Buy	1386	67.38%
Hold	806	22.35%	Hold	563	69.85%
Sell	744	20.63%	Sell	446	59.95%

[R1] Issuers that were investment banking clients of BofA Securities or one of its affiliates within the past 12 months. For purposes of this Investment Rating Distribution, the coverage universe includes only stocks. A stock rated Neutral is included as a Hold, and a stock rated Underperform is included as a Sell.

FUNDAMENTAL EQUITY OPINION KEY: Opinions include a Volatility Risk Rating, an Investment Rating and an Income Rating. VOLATILITY RISK RATINGS, indicators of potential price fluctuation, are: A - Low, B - Medium and C - High. INVESTMENT RATINGS reflect the analyst's assessment of both a stock's absolute total return potential as well as its attractiveness for investment relative to other stocks within its Coverage Cluster (defined below). Our investment ratings are: 1 - Buy stocks are expected to have a total return of at least 10% and are the most attractive stocks in the coverage cluster; 2 - Neutral stocks are expected to remain flat or increase in value and are less attractive than Buy rated stocks and 3 - Underperform stocks are the least attractive stocks in a coverage cluster. An investment rating of 6 (No Rating) indicates that a stock is no longer trading on the basis of fundamentals. Analysts assign investment ratings considering, among other things, the 0-12 month total return expectation for a stock and the firm's guidelines for ratings dispersions (shown in the table below). The current price objective for a stock should be referenced to better understand the total return expectation at any given time. The price objective reflects the analyst's view of the potential price appreciation (depreciation).

Investment rating	Total return expectation (within 12-month period of date of initial rating)	Ratings dispersion guidelines for coverage cluster[R2]
Buy	≥ 10%	≤ 70%
Neutral	≥ 0%	≤ 30%
Underperform	N/A	≥ 20%

[R2] Ratings dispersions may vary from time to time where BofA Global Research believes it better reflects the investment prospects of stocks in a Coverage Cluster.

INCOME RATINGS, indicators of potential cash dividends, are: 7 - same/higher (dividend considered to be secure), 8 - same/lower (dividend not considered to be secure) and 9 - pays no cash dividend. *Coverage Cluster* is comprised of stocks covered by a single analyst or two or more analysts sharing a common industry, sector, region or other classification(s). A stock's coverage cluster is included in the most recent BofA Global Research report referencing the stock.

Price Charts for the securities referenced in this research report are available on the Price Charts website, or call 1-800-MERRILL to have them mailed.
In the US, retail sales and/or distribution of this report may be made only in states where these securities are exempt from registration or have been qualified for sale: Hua Hong Grace.
BofA Global Research personnel (including the analyst(s) responsible for this report) receive compensation based upon, among other factors, the overall profitability of Bank of America Corporation, including profits derived from investment banking. The analyst(s) responsible for this report may also receive compensation based upon, among other factors, the overall profitability of the Bank's sales and trading businesses relating to the class of securities or financial instruments for which such analyst is responsible.

Taiwan Readers: Neither the information nor any opinion expressed herein constitutes an offer or a solicitation of an offer to transact in any securities or other financial instrument. No part of this report may be used or reproduced or quoted in any manner whatsoever in Taiwan by the press or any other person without the express written consent of BofA Securities.
This document provides general information only, and has been prepared for, and is intended for general distribution to, BofA Securities clients. Neither the information nor any opinion expressed constitutes an offer or an invitation to make an offer, to buy or sell any securities or other financial instrument or any derivative related to such securities or instruments (e.g., options, futures, warrants, and contracts for differences). This document is not intended to provide personal investment advice and it does not take into account the specific investment objectives, financial situation and the particular needs of, and is not directed to, any specific person(s). This document and its content do not constitute, and should not be considered to constitute, investment advice for purposes of ERISA, the US tax code, the Investment Advisers Act or otherwise. Investors should seek financial advice regarding the appropriateness of investing in financial instruments and implementing investment strategies discussed or recommended in this document and should understand that statements regarding future prospects may not be realized. Any decision to purchase or subscribe for securities in any offering must be based solely on existing public information on such security or the information in the prospectus or other offering document issued in connection with such offering, and not on this document.
Securities and other financial instruments referred to herein, or recommended, offered or sold by BofA Securities, are not insured by the Federal Deposit Insurance Corporation and are not deposits or other obligations of any insured depository institution (including, Bank of America, N.A.). Investments in general and, derivatives, in particular, involve numerous risks, including, among others, market risk, counterparty default risk and liquidity risk. No security, financial instrument or derivative is suitable for all investors. Digital assets are extremely speculative, volatile and are not regulated in a manner similar to U.S. securities markets. In some cases, securities and other financial instruments may be difficult to value or sell and reliable information about the value or risks related to the security or financial instrument may be difficult to obtain. Investors should note that income from such securities and other financial instruments, if any, may fluctuate and that price or value of such securities and instruments may rise or fall and, in some cases, investors may lose their entire principal investment. Past performance is not necessarily a guide to future performance. Levels and basis for taxation may change.
This report may contain a short-term trading idea or recommendation, which highlights a specific near-term catalyst or event impacting the issuer or the market that is anticipated to have a short-term price impact on the equity securities of the issuer. Short-term trading ideas and recommendations are different from and do not affect a stock's fundamental equity rating, which reflects both a longer term total return expectation and attractiveness for investment relative to other stocks within its Coverage Cluster. Short-term trading ideas and recommendations may differ from a stock's fundamental equity rating.

BofA Securities is aware that the implementation of the ideas expressed in this report may depend upon an investor's ability to "short" securities or other financial instruments and that such action may be limited by regulations prohibiting or restricting "shortselling" in many jurisdictions. Investors are urged to seek advice regarding the applicability of such regulations prior to executing any short idea contained in this report.
Foreign currency rates of exchange may adversely affect the value, price or income of any security or financial instrument mentioned herein. Investors in such securities and instruments, including ADRs, effectively assume currency risk.
BofAS or one of its affiliates is a regular issuer of traded financial instruments linked to securities or digital assets that may have been recommended or discussed in this report. BofAS or one of its affiliates may, at any time, hold a trading position (long or short) in the securities and financial instruments recommended or discussed in this report.
BofA Securities, through business units other than BofA Global Research, may have issued and may in the future issue trading ideas or recommendations that are inconsistent with, and reach different conclusions from, the information presented herein. Such ideas or recommendations may reflect different time frames, assumptions, views and analytical methods of the persons who prepared them, and BofA Securities is under no obligation to ensure that such other trading ideas or recommendations are brought to the attention of any recipient of this information.
In the event that the recipient received this information pursuant to a contract between the recipient and BofAS for the provision of research services for a separate fee, and in connection therewith BofAS may be deemed to be acting as an investment adviser, such status relates, if at all, solely to the person with whom BofAS has contracted directly and does not extend beyond the delivery of this report (unless otherwise agreed specifically in writing by BofAS). If such recipient uses the services of BofAS in connection with the sale or purchase of a security referred to herein, BofAS may act as principal for its own account or as agent for another person. BofAS is and continues to act solely as a broker-dealer in connection with the execution of any transactions, including transactions in any securities referred to herein.

BofA Securities is under no obligation to update this information and BofA Securities ability to publish information on the subject issuer(s) in the future is subject to applicable quiet periods. You should therefore assume that BofA Securities will not update any fact, circumstance or opinion contained herein.
Subject to the quiet period applicable under laws of the various jurisdictions in which we distribute research reports and other legal and BofA Securities policy-related restrictions on the publication of research reports, fundamental equity reports are produced on a regular basis as necessary to keep the investment recommendation current.
Certain outstanding reports or investment opinions relating to securities, financial instruments and/or issuers may no longer be current. Always refer to the most recent research report relating to an issuer prior to making an investment decision.
In some cases, an issuer may be classified as Restricted or may be Under Review or Extended Review. In each case, investors should consider any investment opinion relating to such issuer (or its security and/or financial instruments) to be suspended or withdrawn and should not rely on the analyses and investment opinion(s) pertaining to such issuer (or its securities and/or financial instruments) nor should the analyses or opinion(s) be considered a solicitation of any kind. Sales persons and financial advisors affiliated with BofAS or any of its affiliates may not solicit purchases of securities or financial instruments that are Restricted or Under Review and may only solicit securities under Extended Review in accordance with firm policies.
Neither BofA Securities nor any officer or employee of BofA Securities accepts any liability whatsoever for any direct, indirect or consequential damages or losses arising from any use of this information.
